

Options for

# URGENT CARE

in Washington State

**Know before you go. When you need urgent care, you have choices.**

Convenient hours, lower costs, shorter wait times and no appointment necessary for most locations.

In a medical emergency, always dial 911 or go to the nearest emergency room. But when your condition isn't life threatening, you can save time, save money and get the care you need from:

- **Your doctor.** They know you best. Make an appointment or ask about your care choices.
- **Urgent care clinics.** They are most like emergency rooms. Their doctors, assistants and nurses treat broken bones, cuts, fevers and conditions that need immediate care.
- **Extended hour clinics.** Many primary care clinics are open evenings and weekends. They can treat simple conditions like earaches, sore throats and flu.

If you need help with your treatment choices or where to go for care, call the **Cigna 24-hour Health Information Line<sup>SM</sup>** at **1.855.402.0272**, to speak with a nurse anytime day or night.

See reverse side for a list of **urgent care** and **extended hour clinics** in your area.

**Note:** To make sure you get access to the care you need, call Cigna or the clinic to confirm operation hours and that the center is still in the network.

**GO YOU<sup>®</sup>**
